Hello Partners,

We are providing this update regarding the Governor's Executive Order for Shelter in Place and its effect on Eastern Illinois Foodbank. EIF and our member agencies are classified as an essential business and are able to remain open via the Executive Order.

As of this time, we plan to continue operations at EIF. We will make adjustment to our procedures and processes based on CDC guidelines, agency constraints, manpower, food and fund availabilities and changing circumstances.

The guidance you received earlier regarding different protocols, such as maintaining social distances and wiping down surfaces, etc. will remain in place.

Please reach out to EIF if you have any additional questions or concerns. Thank you!
